DETAILED ACTION

Election/Restrictions

The election of Group III is acknowledged. Upon examination it has been determined that generic claims 1, 5, 15, 29, 30, 37, 44, and 47 are allowable. Generic claim 28 is rejected below. As per Applicant's request for consideration of claim 21 in light of the allowability of claim 1, the Examiner has found claim 21 (and the claims depending therefrom) to also be allowable.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 28 is rejected under 35 U.S.C. 102(e) as being anticipated by Knittel et al.

As per claim 28, Knittel et al. discloses a method of determining a room temperature of an automobile cabin wherein an error value based on a temperature of a solid mass (thermal conductor in contact with the sensor) is added/subtracted to/from the temperature sensed by the sensor to compensate for the effects of solid objects surrounding the sensor (see for example column 4, line 58 – column 5, line 53).

Art Unit: 3744

Allowable Subject Matter

Claims 1-27, 29-50, 52, and 53 are allowed.

Claim 51 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
